

Tips to Get Rid of Ants from Your Home

BY
PEST END

The first thing that every homemaker should follow without fail is to maintain a good sanitation practice at home. The kitchen should be clean and less attractive to ants. Not only the kitchen platform but the crumbs, spills, and garbage should be kept clean. It is better to use zip-top bags to store food like sweets. Properly seal the jars with a lid when you keep honey or sweet items.

A close-up photograph of several black ants on a dark, textured surface. The ants are the central focus, with one in the foreground and others slightly behind it. The background is a blurred, light-colored surface.

Homemakers can follow the manual tip to spray vinegar near baseboards, on kitchen countertops and in any cracks. This discourages ants to come. Repeating the process for a number of times in a day will definitely help you.

To Treat Ant Problems you Can Follow Some More Home Remedies Like:

Protein and Grease Solution

Peppermint Remedy

Cinnamon Tips:

The Baby Powder Option

Use of Vaseline

Protein and Grease Solution

Protein and grease stuff attracts ants. A mixture of peanut butter with a spoon of sugar accompanied with 1 teaspoon of borax can be useful to remove ant infestation.

Putting a few drops of peppermint oil on a cotton ball and keeping them in the places where the ants crawl around can be done but quick.

Peppermint Remedy

Cinnamon can be sprinkled to discourage ants entry.

Cinnamon Tips:

Often baby powder can be sprinkled around the perimeter of the house and the entry points..

The Baby Powder Option

Rubbing Vaseline, near the areas also works on a few ants.

Use of Vaseline
